The second keepsake created for the Hands Touching Hearts gift collection is a banner.

The canvas banner measures 8 1/2 inches tall by 11 inches wide.

Like all program keepsakes, the banner is designed to be transformed by the work of the decorator's hands. For this gift, program participants decorate the wooden crosspiece from which the banner is suspended.

Upon completion of the gift, the decorator has two options:

1. Take the keepsake and give it to an active-duty service member, reservist or veteran that the decorator knows personally.

2. Give the keepsake to Ann M. Cosgrove, the originator of Hands Touching Hearts, and have her send it to a World War II veteran that the decorator does not know personally.
